Subject: Microsoft Settlement

Dear Sir/Madam

I have been in the technology field for over twenty years. If I look back, we have come a LONG way in terms of what I, as a consumer, am able to do and use the technology for. Microsoft has a big part in this success for our daily quality of life. I am sure other consumers feels the same.

It is my belief that technologies companies must be left alone, and this settlement with states provides proper coverage for any potential abuse.

Let the market, the consumers and the quality of products developed by the companies be the real judge of true competition and the technology innovations.

Cheers!
